I would like to thank you again for your kind gesture and invitation. Your wonderful Summit turned out to be the best conference I have been to. It's only because of your splendid efforts and management, that made it so successful and highly stimulating and beneficial for all participants. I am sure that everyone must have told you this. I enjoyed the Summit very much, interesting Speakers, nice participants and the wonderful place. I do appreciate your painstaking work for the organization and engagement of the Summit , and needless to say of course , your Hospitalities, such summit involves enormous amounts of time and energy -- you must have been working so hard lately for everything to fall into place as it has. You deserve now, a well-earned rest with your lovely wife. Finally it's certainly wonderful experience for me that your Summit has been, it brought together people from different sides of bilingualism - highly profile family offices and excellent participants. It has been an inspired decision which, in my opinion, leaves warm memories specially for me which I will treasure for the rest of my business life.

I'm often asked, "Where can I find capital for my startup?" The good news is that there's no shortage of capital, especially with family offices. Family offices often have significant funds ready to invest, but they face challenges in finding the right startups which could be YOURS!

I had the pleasure of speaking at the Global Family Office Investment Summit in Dubai in a wonderful panel moderated by Hussein Sayed, CFA, CMT, where I shared my insights as an investor and asset manager. I also discussed what I call the key challenges family offices face in discovering the right startups, which include limited access to well-curated deal flow, a lack of expertise in specific industries, and a naturally cautious approach to risk. As a result, many family offices miss out on high-potential opportunities, leaving their capital underutilized.

What are your thoughts on the challenges family offices face today? #dubai #UAE

💥 *Just CRUSHED it at the Global Family Office Investment Summit in Dubai!* 🚀

Talked about one of my core philosophies: Money Follows FAME. The truth is, if you're not leveraging your influence, you're leaving money on the table. 🤑 *Shared the stage with A-list celebrities, powerhouse CEOs, and entrepreneurs who understand the game. And trust me, the future is in Hollywood.ai and Bollywood.ai—where AI meets entertainment, and FAME becomes your greatest currency.* 🎬🤖

The crowd was 🔥 *Everyone is pumped and ready to take things to the next level. If you're not talking FAME, you're not in the conversation. It's not just business—it's about building a legacy.*

Let's go BIG or go home. 💯💥

It was a tremendous honor to speak at Global Family Office Investment Summit under the theme "Navigating Tomorrow's Opportunities." I had the privilege of delivering insights during the spotlight on Co-Investment Opportunities — a strategy that has helped some of the most astute families build multi-generational wealth by seizing off-market co-investment deals.

The exclusive access to these opportunities is what makes this event so special. New co-investments are on the horizon, ripe for those ready to make their mark. The summit showcased an excellent program filled with remarkable opportunities, a true testament to the incredible progress in our ever-evolving investment landscape.

The event brought together leading global investors, prominent family offices, and key financial leaders, creating a dynamic space for collaboration and knowledge-sharing.

The future is here, and it's filled with potential!

I had two engaging and productive days at the Global Family Office Investment Summit - Dubai Edition. I met with leaders of family offices from the United Arab Emirates, Kingdom of Saudi Arabia, and Kuwait. We discussed the future of AI in healthcare, and how BPGbio is leading in the biotech industry.

BPGbio, Inc. has developed the NAi Interrogative Biology® Platform, a cutting-edge biology-first AI approach that has added the patient voice and intersection of math and biology to the drug discovery and development process.

The platform has generated over 250 drug targets and diagnostic #biomarkers in huge unmet disease areas. Its hallmark achievements include a novel targeted protein degradation (TPD) program based on E2 enzymes, which were long considered undruggable, and a franchise drug candidate BPM31510 in topical, IV and oral formulations for multiple oncology and mitochondrial disorders.

BPM31510 IV has recently received Rare Pediatric Disease designation from the U.S. Food and Drug Administration #FDA for its potential as a treatment for Primary CoQ10 Deficiency (PCQD) in addition to Orphan Drug Designation for Glioblastoma Multiforme #GBM, Pancreatic Cancer, and Epidermolysis Bullosa #EB.

BPM31510 IV is also being studied in phase 2 clinical trials as a potential breakthrough therapy for aggressive cancers such as glioblastoma and pancreatic cancer while in planning phases for late-stage Phase 2/3 trials for EB and PCQD.

I have temporarily relocated to Dubai and will be further exploring potential strategic partnerships with interested parties within the healthcare space in the GCC region. Please message me to schedule a meeting.

C. Robert Pedraza, Executive Vice President, **BPGbio, Inc.**, USA

At the Global Family Office Investment Summit - Dubai Edition, we're exploring how #AI is transforming wealth management 🌍. Global family office wealth is set to rise from $5.5 trillion to $9.5 trillion by 2030, with the Asia-Pacific region seeing exponential growth 📈. Closer to home, the #GCC's financial wealth is projected to reach $3.5 trillion by #2027, driven by innovation and the growth of ultra-high-net-worth individuals. The #MENA region is primed for even greater expansion, with technology leading the charge in wealth creation and sustainable investment 🚀.

I'm still on a Dubai high!

A little over a week ago, I visited Dubai for the first time to speak on the Global Family Office Investment Summit - Dubai Edition panel.

The panel discussion was focused on women empowerment, leadership and strategies women in business, investing and family offices have had to learn, and master.

My two days were filled with all kinds of learning (and timely insights) for me especially in the areas of sustainability, investing, private equity, education and healthcare in light of the current geopolitical landscape. The energy was off the charts!

Every single person I met was kind, welcoming and genuinely willing to explain what they were doing, why they were focused on helping humanity (in their own way) and extremely supportive of others, too.

A quick shout out to the other wonderful ladies; thank you for the inspiration, you are beautiful, powerful and you rock...obviously! Leili Gerami, Marcela Charry, Hasnae Taleb, Mariya Spartalis and Dr. Arshi Ayub Mohamed Zaveri.

And a special shout out to Alan Smithson for taking my picture (I always forget!) and the lovely, ever fabulous Beverly Moore B. for hosting the 'Leading Women in Business' panel discussion.

Sending immense gratitude to Mohamed Al Ali and the entire team at the summit for their immaculate effort putting together this event, it was nothing short of remarkable!

While I arrived Dubai as a visitor, I left feeling like I was part of a family of friends and like-minded humans who care, and dare to be authentic while leading with empathy. 🙏❤️🇦🇪

I'm still recovering from the positive emotions from Dubai last week.

This city is full of energy and opportunities on every corner.

Speaking on the Global Family Office Investment Summit - Dubai Edition panel was one of the most interesting and exciting experiences.

People were randomly approaching me with warm messages about Edumentors and how they loved our model of helping school students around the world.

On the panel I spoke about what I think is "wrong" with today's education systems and it connected with a lot of people in the audience.

School systems that were effective during the industrial period, are no longer effective for 21st century children.

We need more personalised education. We need to treat children as unique individuals.

It's impressive to see the UAE's government investing so effortlessly in education and I hope to see other countries follow that too.

Education aside, as a founder, I was truly impressed with the dynamic and vibrant environment in Dubai and the entrepreneurial mindset that is culturally welcomed there.
